

## The latest news from the pool .

It is claimed that swimming (and related activities) is the No 1 participation sport/activity in the country by family members on a weekly basis throughout the year.

But whatever your motivation it's going to take a lot of enthusiasm , positive support and a serious financial strategy to achieve lasting success..

In the meantime your small LVCS committee has not been idle and we have a team of volunteers standing by to spring-clean the building and apply essential cosmetic improvements the minute we get the keys. We have also interviewed suitably qualified and experienced management, technical, life guards and teaching staff and volunteers and look forward to a long and successful future for the 'family- friendly' Lune Valley Community Pool.

We have completed the boring bits, phase one & two- The application and actual transfer - but sadly still awaiting a few bits of legal stuff. but once that's all in our hands we come to the really exciting bit - Hands on, getting the pool up and running. Can't wait.- watch this space!

It's your pool and it couldn't have been done without your outstanding contribution.

Thank you again for all your support and encouragement.

Any questions please give us a call.
